

Your IT Career Can Start Today

Learn the fundamentals of connecting computers to networks through the IT Beginnings course offered at the Raleigh Pathways Center. The program will provide young adults the chance to improve their technology skills, learn about careers in IT, and develop job seeking skills. This exciting first step

could lead to a rewarding IT career. Upon successful completion of the course you will earn a CompTIA Certification and receive a paid internship at the Kramden Institute. No prerequisites or computer knowledge required.

During the program you will:

- Learn computer hardware and software skills
- Identify high demand careers in IT and Cyber Security
- Develop a career plan
- Improve leadership, teamwork, and social skills to be successful on the job
- Upon successful completion of the course you can earn a CompTIA Certification
- Receive a paid internship at the Kramden Institute (upon certification completion)

Opportunities may include:

- Tours of IT related businesses
- Employer networking
- Review of resumes
- Individual support
- Paid internships

Applications currently being accepted! Eligible applicants must be Wake County residents between the ages of 18-24 years. Applicants must have earned a high school diploma or GED and must be unemployed or underemployed.

To apply for the program, go to raleighnc.gov and search for "IT Career" to sign up!
