Beginning in 1989 with Public Law 101-166, Section 511, U.S. Department of Labor's (USDOL) annual appropriation from Congress has included a provision known as the Stevens Amendment. For fiscal year 2022, this provision appeared in section 505 of Division H of Public Law 117-103 (the Consolidated Appropriations Act, 2022).

The Stevens Amendment is an appropriations provision that requires grantees of the USDOL, U.S. Departments of Health and Human Services, and Education to disclose for a grant program the percent of the costs financed with federal funds, the federal dollar amount, and the percentage and dollar amount financed by non-governmental funds, which means any funding source other than the Federal Government. These funding disclosures must be made when issuing statements, press releases, bid solicitations, and other documents describing their grant project or program.

Pursuant to P.L. 117-103, Division H, Title V, Section 505, when issuing statements, press releases, requests for proposals, bid solicitations and other documents describing projects or programs funded in whole or in part with Federal money, all non-Federal entities receiving Federal funds shall clearly state:

1. The percentage of the total costs of the program or project which will be financed with federal money;
2. The dollar amount of federal funds for the project or program; and
3. The percentage and dollar amount of the total costs of the project or program that will be financed by non-governmental (i.e., non-federal government) sources.

This WIOA Title I Adult Program bid solicitation is 100 percent supported by the Employment and Training Administration (ETA) of the USDOL as part of an award totaling \$5,417,756 million.
